DELPHON CEO JEANNE BEACHAM ACCEPTED TO THE COMMITTEE OF 200

HAYWARD, CA MAY 5, 2016 Jeanne Beacham, CEO of Delphon, a company that specializes in polymer and adhesive solutions for the medical and electronics industries, was recently accepted to The Committee of 200 (C200), an organization of leading women business owners and corporate executives.

C200 is an invitation-only, global organization composed of the world's most successful female entrepreneurs and corporate leaders. The organization's primary mission is to foster, celebrate and advance women's leadership in business. C200 and its programming supports women at every point of their education and career development, from high school to the board room, helping to cultivate a pipeline of powerful future female business leaders to ensure that women will continue to play increasingly significant and visible leadership roles.

Collectively, C200 member companies generate more than \$1.4 trillion in annual revenues.

Ms. Beacham has received numerous leadership and technical awards including The Diamond Leadership Award and the East Bay Women of Distinction Award. She has been recognized as one of the Top Influential Women in Business and a Woman of Distinction in Technology by the San Jose Business Journal. Delphon has been identified by the San Francisco Business Times as one of the Top Women Owned business in the Bay Area. Jeanne was honored to give the commencement address to the McCormick School of Engineering at Northwestern University and also participated in the University's guest lecture series at the Kellogg School of Management. She has been a guest speaker at Oracle, VWR, GWAN, Nawbo, University of Oregon, Oregon State and WISE. Ms. Beacham is a Past President of the Silicon Valley Chapter of NAWBO (National Association of Women Business Owners) and a founding member of SWAN (Semiconductor Women's Alliance Network). She has served on multiple industry, academic, and private boards.

Background:

Delphon provides innovative polymer and adhesive solutions to the high-technology industry. For over 35 years, the company has developed breakthrough products that provide solutions for
