GEL-PAK APPOINTS NEW NATIONAL SALES MANAGER

HAYWARD, CA, JULY 31, 2007: Gel-Pak®, a division of Delphon Industries and leading manufacturer of Gel-coated carriers used for device shipping, handling and processing, announced today the appointment of Jasmine Ihua Shih to the position of National Sales Manager. Ms. Shih will report directly to Darby Davis, Director of Worldwide Sales and Marketing. She will be responsible for managing the company's national sales effort as well as developing new vertical markets.

Ms. Shih brings with her over a decade of product sales and marketing experience in the high-technology industry, most recently as Regional Sales Manager for Sheumann Inc. of Marlborough, MA, a manufacturer of high-power lasers. Ms. Shih also spent more than eight years with Applied Materials of Santa Clara, CA holding various product and business management positions. "Jasmine's extensive experience in technical product marketing coupled with her sales knowledge makes her an ideal

candidate to manage Gel-Pak's national sales efforts," says Darby Davis.

Background:

Since 1980, Gel-Pak has manufactured a line of Gel-coated device carriers and handling materials that offer unique solutions for applications where damage during handling must be avoided. The company's proprietary elastomer technology serves as the basis of its Gel-Box, Gel-Tray, Film, and patented Vacuum Release (VR) products. Gel-Pak is a division of Delphon Industries, LLC. For further information on Gel-Pak's product line, please refer to their website at www.gelpak.com.

.

About the Parent Company:

Gel-Pak is a division of Delphon Industries, LLC headquartered in Hayward, California. Delphon's mission is to provide materials and services for the shipping, processing, and packaging of high value technology components.

With the divisions Gel-Pak, Quik-Pak, TouchMark, and UltraTape along with a worldwide sales and distribution network, Delphon Industries serves a wide range of markets including semiconductor, medical, opto-electronics, solar, and data storage.
