FOR IMMEDIATE RELEASE
9 A.M. EDT October 12, 2011

Now Available: UltraTape Poly TechCut™ Products

October 12, 2011. UltraTape Industries, a division of Delphon and the premier supplier of tapes and labels for critical environments in the Medical/Pharmaceutical, Aerospace, Electronic and Semiconductor industries, announced today its new Poly TechCut™ products. These polyimide film and label products can be custom cut to meet the size specifications of any application.

Polyimide adhesive products are known for high performance, reliability and durability, with a unique combination of electrical, thermal, chemical and mechanical properties that withstand extreme temperature, vibration and other demanding environments. Polyimide films and label stock are ideal for high temperature masking applications including powder coating, protection of printed circuit boards during wave soldering, electrical insulation applications, and industrial soldering. This product is thin and conformable, enabling masking of uneven surfaces and it removes cleanly without adhesive residue after exposure to heat or chemicals.
