ULTRATAPE ANNOUNCES FIRST CLEANROOM CERTIFIED BARRICADE TAPES

SALEM, OREGON March 28, 2012 UltraTape Industries, a division of Delphon, and the premier supplier of Cleanroom tape and labels announces its "UltraClean" certified Class 10 (ISO 4) Barricade tape. These non-adhesive barricade tapes are made with a durable polyethylene film on a plastic core and are the first barricade tapes on the market suitable for critical environments.

UltraTape's UltraClean Barricade tapes are available in 3" width with bold two-inch black characters that stand out on the bright red or yellow film background. The UltraTape 4421 is a yellow barricade tape printed with "CAUTION" and the 4422 product is a red barricade tape printed with "DANGER DO NOT ENTER." Both tapes are processed through UltraTape's manufacturing cleaning process, individually inspected, double bagged and sealed in cleanroom certified MDPE bags to prevent contamination to critical environments. Custom printed barricade tapes are also available.
